

Dear Student,

Are you still thinking of something to do during this holiday? How about learning some useful tricks in a customised LED Cube Workshop to create your own 4x4x4 LED Cube 3D display? In this workshop, you will learn the fundamentals of electronic circuits and basic software programming. We will take you through step by step soldering of wires and components to form your cube to programming of the software to create awesome light displays!

Date: 17 to 19 December 2014

Time: 09.30 a.m. to 4:00 p.m.

Venue: EEE, Project Laboratory (S2-B4a-01/02)

Limited vacancies are available! Please click on the below link to register:
