

Dear Students,

## Transcend Your Idea into Reality

Hi, my name is NUC140.

I am a computer miniaturised into this chipset. I enjoy gossiping using GPS, Wi-Fi, Bluetooth and ZigBee to other hardware devices.

Basically I will make the World work just for you.

I am powerful.

What can I do for you?

Design a ground-breaking product idea based on Nuvoton's NuMicro™ NUC140 that will make the world a better place.

### **Prizes**

1st: S\$2000

2nd: S\$1000
